WORK EXPERIENCE

Freelance | 2024

I freelance as a graphic designer, specializing in creating illustrations, logos, and graphic art. I work with startups and businesses to develop visual identities that effectively communicate their brand message.

CAPSTONE PROJECT

PEMS | Full-stack

Our capstone is project expenses management system where all the expenses of the company is being stored digitally. My role here is the developer where I created the UI/UX, front-end and back-end of the system.
